GENERAL REQUIREMENTS **FOR EVENT PARTICIPANTS**

Central Florida BBQ Blowout Event May 27th, 2017

Due to DBPR regulations and Florida Administrative Code 61C-4.016 all cooking and food preparations shall be done under cover, therefore the following requirements are outlined in the Florida Fire Prevention Code 5th Edition and shall be adhered to:

When cooking, warming, or utilizing a smoker under a tent/canopy like structure, the structure shall be an approved flame resistant material compliant with NFPA 701 standards. **The label shall be permanently affixed to the tent showing the fire resistant treatment or rating approval.** If utilizing a non-compliant tent/canopy like structure the operation shall be conducted outside of the structure and a minimum 10 feet away.

When cooking, warming or use of a smoker occurs there shall be a minimum 10 foot clearance distance between your operation and adjacent event participants.

When cooking equipment in fixed, mobile, or temporary concessions, such as trucks, buses, trailers, produces grease laden vapors a professionally certified NFPA 96 fire suppression system shall be installed. This system shall also be up to date with inspections (every 6 months).

When cooking, warming, or use of a smoker occurs by means of electricity, gas, charcoal/wood, the event participant shall have a minimum (1) one 2A-10BC fire extinguisher.

When cooking involves equipment producing grease-laden vapors, a Class K fire extinguisher shall be provided, in addition to the 2A-10BC fire extinguisher.

All fire extinguishers, to include new store bought types, shall be serviced, and tagged annually by a licensed fire extinguisher contractor. For event participants outside the State of Florida, we will accept a minimum 2A-10BC fire extinguisher if tagged by a licensed fire extinguishers contractor from within your state as long as it is current. For event participants within Florida please conduct an online search or check the yellow pages for local contractors.

Important- Fire extinguishers purchased from a hardware store do not come tagged by a licensed State of Florida fire extinguisher contractor; therefore you will need to contact a local licensed fire extinguisher contractor for this service.

Deep fat fryers or pans with grease used for cooking shall have a metal cover plate, (lid) to put on them in case of fire or rain. There shall also be at least an 8-inch vertical or 16-inch horizontal separation from the deep-fat fryer and any adjacent open flame-cooking appliance.

All propane cylinders shall be secured. Small cylinders (20lbs) can be place in a milk carton or any other carton type crate. Larger cylinders shall be secured to a stationary object, (fence, pole, etc.) except personal type grills with propane cylinders attached.

All propane cylinders (other than personal type grills with propane cylinders attached) shall be 10 feet from the cooking appliance with gas line(s) secured.

The filling of gas tanks on site is strictly prohibited.

There shall be no access to any of the cooking appliances by the public.

Fees for Services
City of Oviedo Resolution 3064-15

Explanation: The City of Oviedo has adopted a Fee Schedule for various services or loss of property applicable to all Special Events. The Fee Schedule for Fire-Rescue and associated services are described herein:

Loan	Fire Extinguisher Class ABC	\$50.00
Loan	Fire Extinguisher Class K	\$50.00
Loan	Fire Extinguisher Water	\$50.00

This service is intended to loan an event participant with a code compliant fire extinguisher when one is found to be in violation. It is not intended to serve as a rental service. The event participant is responsible for adhering to all fire extinguisher code requirements mentioned above. Fee is paid by event participant at event. Quantities are limited and based upon availability. Fees shall be paid in cash or check. Credit cards are not accepted at this time.

If property is not returned to the Fire Rescue Department at the conclusion of the event, the following fee will be billed and event host will be notified to potentially exclude event participants in subsequent events:

Lost Property Cost Recovery	Fire Extinguisher Class ABC	\$100.00
Lost Property Cost Recovery	Fire Extinguisher Class K	\$150.00
Lost Property Cost Recovery	Fire Extinguisher Water	\$125.00
